

## CSK4 Conductivity Sensor

- ◆ 4-electrode contacting cells
- ◆ 0...200 mS measurement range for conductivity
- ◆ 0...60 °C measurement range for temperature

### Technical specifications

#### Measuring range

Conductivity measuring range	0...200 mS
Temperature measuring range	0...60 °C

#### Accuracy

Conductivity measurement error	± 1%
Temperature measurement error	± 0.5 °C

#### Resolution

Conductivity resolution	1 µS
Temperature resolution	0.1 °C

#### Design and materials

Case material	titanium alloy
Dimensions	190 mm
Weight	150 g
Protection class	IP65

### Ordering code CSK4 – G0

Code	Feature or option	Code values
G8	Cable length [m]	1...5 (5 is standard)
